

FOR IMMEDIATE RELEASE: January 23, 2025

GCE MEDICAL SHOWCASES STATE-OF-THE ART GLOBAL GAS CONTROL PORTFOLIO AT ARAB HEALTH EXPO

Zug, Switzerland – GCE Medical, an ESAB Corporation brand, will showcase its full range of Health Technical Memoranda (HTM) and medical central gas solutions at the 50th [Arab Health Medical Expo](#) (Booth H1.C15) from January 27-30 at the Dubai World Trade Centre.

This year the portfolio will feature its newest edition to the GCE Healthcare HTM gas manifold line, the GCE [Duplex PNP100](#) HTM. This newest HTM manifold system enables automatic changeover of medical gases, ensuring continuous gas supply to patients, and supports high flow rates of up to 100m³/h at 4 bar and its two-stage pressure regulation guarantees stable delivery pressure. The unit is equipped with an interactive touchscreen alarm for easy monitoring and maintenance and is fully compliant with the requirements of HTM 02-01/2022 standards.

“We are excited to showcase a wide range of gas control solutions addressing hospitals, homecare, medical equipment OEM, installers and ambulatory needs which follow the highest global standards for safety,” says Piyush Sheth, Vice President and General Manager, Gas Control, ESAB Corporation. “With our dedication to innovation, we have meticulously expanded our portfolio to address various global standards including HTM and ISO, and wide range of certifications including CE, MDR, SFDA, and FDA.”

GCE will showcase product lines from each of its brands. Some of the key products on display at the GCE booth include:

- [GCE Healthcare® Zen-O™ Portable Oxygen Concentrator](#): a best-in-class portable oxygen concentrator from GCE with pulse and continuous oxygen delivery modes for active patients requiring oxygen therapy.
- [GCE Medivital® E](#): cylinder valve and integrated pressure regulator for use with all medical gases, ensures continuous oxygen delivery, constant easy to read monitoring with a live display with remote monitoring available, allows for patient mobility.

- [Ohio Medical Push-To-Set™ Suction Regulators](#): preferred vacuum regulator choice for maximum performance, high quality and minimal maintenance. Silent, patented unilogic timing module provides reliable intermittent and continuous modes for suctioning.
- [Therapy Equipment Diamond Range Suction Unit](#): manufactured from high strength plastics and colour-coded level recognition for easy use. Comes with an integral Pipeline Protector for 100% guaranteed protection against contamination – changes to pink to alert when the filter needs changing.

Additionally, since 2023, GCE has expanded its footprint installing more medical equipment across the Middle East, Europe, Canada, the Americas, and Australia, as well as received a certificate of accreditation for the CSN EN ISO/IEC 17025:2018 for testing which is valid for five years.
